

## Features

Low mechanical strength. High resistance to corrosion. High electrical and thermal conductivity. Easy creation, good weldability.

## Routine Use

Chemical, pharmaceutical and food, utensils and appliances, containers, electrical, signs, graduated scales, packaging (tubes, boxes, caps), thin foils, ceilings.

## Possibilities of application and use

CRITERIA		
CORROSION	Resistance to normal atmosphere	Excellent
	Resistance industrial atmosphere	Excellent
ELECTRICAL COND.	Electrical conductivity	Excellent
	Polishing	Excellent
SUP. TREATMENT	Industrial anodizing	Excellent
	Decorative anodizing	Excellent
	Hot folded	Excellent
	Cold folded	Good
CONFORMED	Inlaid/repulsed	Good
	Forged	-
	Machining	Medium-Bad
ASSEMBLY	Welding under protective atmosphere	Excellent
	Resistance welding	Good

## Chemical composition
